Press Release

Rain predicted in Balochistan during next 24 hours. Dry weather conditions continue for another a week. Met Office

Met office predicted some more rains at a number of places in Balochistan including Quetta during next 24 hours. The prevailing cold & dry spell in rest of the country is expected to continue for another a week.

Spokesman of Met. Office informed that current winter is going abnormally dry in most parts of the country, especially in Punjab & no significant rains are expected during next week. However isolated light rain may occur in Lahore, Gujranwala and Faisalabad divisions tomorrow, (03rd January 2010).

Light rain may also occur in Karachi and surrounding areas on 02nd January 2010 (night).
