

**Government of Pakistan
Cabinet Secretariat (Aviation Division)
Pakistan Meteorological Department
Islamabad, Pakistan**

Issue Date: 02 Feb, 2017

Issue Time: 12:00 PM PST

An Active weather system is likely to prevail during 3rd - 5th, February, 2017 over upper parts of the country. It may produce rainfall and snowfall of variable intensity which can trigger Glacial Lake Outburst Flood (GLOF) / Flash Floods due to rains and afterward avalanches due to heavy snowfall in the vulnerable areas of Khyber Pakhtunkhwa (KP).

Community based Early Warning System (EWS) in Bindogol and Golain valleys is operating. Local communities are advised to remain **ALERT** and concerned authorities to take precautionary measures.

Community leaders are requested to translate this Alert in Urdu and display it on notice board for information to all community members.

(Muhammad Akram Anjum)
Chief Meteorologist
For Director General
